

Accace successfully completed group – wide ISO 9001 and ISO 27001 certification

We are proud to announce Accace Group's certifications for ISO 27001 and ISO 9001, as a proof of our belief that cooperation with our Clients must be done in a secure and reliable environment.

Thus, starting August 2012, **all entities within Accace Group have certified the System of information security management** according to **ISO 27001:2005** and **quality management** according to **ISO 9001:2008**. The systems allow us to work in compliant processes among various jurisdictions; moreover, they enhance data security, resource planning, project management, as well as cross-border communication.

The aforementioned certifications represent a crucial step in Accace Group's expansion strategy for the current decade. According to Accace Group's CEO, Jiří Majer, the motivation for being compliant with the standards was not just meeting a growing demand on data securities by multinational clients, but also adding value to our standardized systems and procedures.

International Headquarters changed its business address

Accace Group's expansion – both in number of employees and portfolio structure, as well as in number of departments – resulted in moving Accace International Headquarters (therefore Accace Slovakia) to a bigger office on the following address:

Administratívne centrum Petržalka
Röntgenova 26, 2nd floor
851 01 Bratislava

We are looking forward to welcome you in our new premises!

Ingmar Booij joined Accace as COO

Starting September 1st, Ingmar Booij is the new Chief Operating Officer of Accace Group. As the new COO, Ingmar's responsibilities will encompass managing the company's day-to-day operations.

With 30 years of management experience, Ingmar is an all-round international manager and executive, who has a proven record of success.

For the last 20 years, Ingmar has played an essential role in building a global outsourcing business specializing in administrative services such as bookkeeping, payroll and HR services, from a small local company to its current global size. In 2011, Ingmar founded GOT - Global Outsourcing Team, an international organization that brings together international clients who want to outsource their administration and local providers who deliver outsourcing solutions.

Ingmar has lived in Central Eastern Europe for the past sixteen years, but has worked with clients and management teams from around the world for much longer. Originally a Dutch national, he feels more at home in an international setting.

"I have known Jiří Majer for over a decade and always admired his approach to business and especially his focus on people, staff and clients alike, as well as his drive to use technology in providing excellent services for a reasonable price. It was those qualities that made me consider joining ACCACE. Since having joined ACCACE I have learned that Jiří has excellent management and staff and that the company is even more exciting to work for than I initially thought. Being part of a client focused organization that has the potential and drive to expand internationally makes it even more interesting for me, as building things is part of my very nature."

*Accace finalizeaza
cu succes
certificarile ISO 9001
si ISO 27001
demarate la nivel de
grup*

Suntem mandri sa anuntam obtinerea certificarilor ISO 27001 si ISO 9001, Grupul Accace garantand astfel clientilor o colaborare intr-un mediu sigur si de incredere.

Incepand cu luna august a anului 2012, **toate entitatile din cadrul Grupului Accace sunt certificate in domeniul Sistemului de management al securitatii informationale**, conform **ISO 27001: 2005** si in domeniul **managementului calitatii**, conform **ISO 9001: 2008**. Sistemele permit desfasurarea activitatii pe baza unor procese conforme cu diferite jurisdicii ; in plus, imbunatatesc securitatea informatiilor, planificarea resurselor, managementul de proiecte, cat si comunicarea transfrontaliera.

Certificarile mai sus mentionate reprezinta un pas crucial in strategia de expansiune a Grupului Accace pentru urmatorii ani. Conform afirmatiilor lui Jiri Majer, CEO al Grupului Accace, motivatia din spatele procesului de certificare nu are la baza doar dorinta de a veni in intampinarea nevoilor clientilor multinationali in domeniul securitatii informatiilor, ci si dorinta de a valorifica sistemele standardizate si procedurile grupului.

*Sediul central
Accace isi
desfasoara
activitatea intr-o
noua locatie*

Expansiunea Grupului Accace, atat din punctul de vedere al numarului de angajati si departamente, cat si al structurii portofoliului a avut ca rezultat mutarea Sediului Central International Accace(Accace Slovacia) intr-un spatiu mai mare de birouri, la urmatoarea adresa :

Administrativne centrum Petržalka
Röntgenova 26, 2nd floor
851 01 Bratislava

Va asteptam la noul nostru sediu!

Ingmar Booij este noul COO Accace

Incepand cu 1 septembrie, Ingmar Booij este noul Chief Operating Officer al Grupului Accace, preluand responsabilitatea administrarii operatiunilor zilnice ale companiei.

Cu o experienta in management de 30 de ani Ingmar este un manager si un director cu experienta internationala, lucru sustinut si de realizarile sale.

In ultimii 20 de ani, Ingmar a avut un rol cheie in crearea unei afaceri de externalizare la nivel global, care se specializeaza in servicii administrative precum cele de contabilitate, salarizare si servicii in domeniul Resurselor Umane, pornind de la o companie mica si ajungand la una de nivel global. In anul 2011, Ingmar a fondat GOT- Global Outsourcing Team , o organizatie internationala care aduce impreuna clienti care doresc sa-si externalizeze partea administrativa si furnizori locali care ofera solutii de externalizare

Ingmar locuieste in Europa Centrala si de Est de 16 ani, dar colaboreaza cu clienti si echipe de management din intrega lume de un numar mult mai mare de ani. La originea olandez, acesta se simte mai confortabil intr-un cadru international.

“ Il cunosc pe Jiri Majer de peste zece ani si i-am admirat dintotdeauna felul in care abordeaza afacerile si in mod special atentia pe care o acorda oamenilor in general, fie ca sunt angajati sau clienti, precum si dorinta sa de a utiliza tehnologia pentru a oferi servicii de o calitate excelenta la un pret rezonabil. Aceste calitati au avut un rol important in decizia mea de a ma alatura Grupului ACCACE. Odata inceputa colaborarea cu ACCACE, am descoperit un management excelent , o echipa competenta si un mediu de lucru mult mai captivant decat anticipasem .Faptul ca acum fac parte dintr-o organizatie care pune accentul pe client si care are potentialul de a se dezvolta la nivel international constituie un bonus , cu atat mai mult cu cat crearea de noi lucruri ma reprezinta.”
